

PA-250-HS-AF COMPACT AXIAL AIR MOVER

1/4HP HIGH SPEED WITH DAISY CHAIN

Available Colors

Introducing the industry's most compact, high speed axial fan! The PURAERO PA-250-HS-AF High Speed Axial Fan was designed with the large loss industry in mind: low amp draw, durable lightweight rotomolded housing, small footprint stack ability (less than 1 cu. ft. of space) for maximum transport and storage. Due to its high air flow velocity, the PA-250-HS-AF powerful high RPM motor was engineered to outperform traditional axial fans and air movers in actual water damaged drying scenarios. Unlike any other axial fans in the market, the PA-250-HS-AF includes a removable metal rack/stand that allows the unit to rotate 360° for multiple versatile drying positions.

PRODUCT FEATURES

- Stackable up to 5 Units High
- Built-In GFCI Power Outlet for Daisy Chain
- High RPM, Sealed Motor
- Rack/Stand for Multiple Drying Positions
- Reset Power Button
- Water Resistant Power Control Switch

SPECIFICATIONS

Volts / Cycle / Watts	115V / 60Hz / 195W
Amps (On High)	1.9A
Max Air Volume	1050 CFM
Max Air Velocity	3000 FPM
Fan Speed (On High)	3400 RPM
Speed Settings	1 Speed
Noise Level	84dB
Unit Size (LxWxH)	13.8" x 10.2" x 11.6"
Unit Weight	15.9 lbs.
Power Cord	15' / 14AWG
Safety Certification	ETL/cETL
Xactimate Code	WTRDRY+
Warranty	1 Year - Parts & Labor 5 Years - Housing
